

SHIVELY COUNCILWOMAN MARIA JOHNSON PRESENTS

Thursday, November 4, 2021
From 5:30 – 7:30pm
Shively Community Building
(now The Heritage)
1901 Park Road

Grades 5th – 8th are invited to come and explore Science, Technology, Engineering and Math (STEM) in an interactive environment. STEM is a big part of the world around us and is used to improve our lives everyday. It is used to make us safe, comfortable and travel efficiently. Come join the fun in designing the next car that may someday be used to drive across the bridge that you will also design and build. This will be a hands-on activity where you will be the designer, the builder, and the tester. This event is FREE and all materials will be furnished. Chief Engineer Monica Moman-Saunders will facilitate the class.

Registration is required and space is limited. Call Councilwoman Maria Johnson at 502.409.0401 to reserve your spot!
